

HOOF CARE CLINIC: HOOF READING 101

Hooves are a window to your horse's health – learn how to look through that window and better understand how to care for your horse.

MORNING SESSION:

- Are your horse's hooves healthy?
- What is an event line, when is it important?
- Monitoring growth, quality and quantity
- Does this sole look good to you and why?
- Doing the math, when lots of small problems point to a bigger issue
- Am I 'the worried well'?

AFTERNOON SESSION:

The afternoon will be more practical, with theory being applied to cadaver hooves.

- Learn how to remove a shoe
- Learn what is and how to identify Natural Hoof Care
- Learn how to apply a mustang roll
- The class will assess the health of a range of cadaver feet
- Each student will select two samples to practice the application of a mustang roll.

HOW TO JOIN:

The Hoof Reading 101 clinic is priced at £60 for existing clients and £120 for non-clients and includes tea, coffee and the use of a cadaver leg. Class sizes are kept small to allow for the maximum tutor time per student.

BAREFOOT-SOUTH
NATURAL HOOF CARE

ABOUT BAREFOOT-SOUTH

Lucy Priory - Principal

I've owned and managed barefoot horses for nearly 20 years. It's been a long journey from when I started to this point in time, but a thoroughly rewarding one. It wasn't until I got Grace that I decided to turn professional.

I originally qualified with the AANHCP, the leading provider of Natural Hoof Care, scoring 90% in my final exam.

I now run my own business; Barefoot South. I have a very strict code of ethics which puts your horse's welfare at the centre of any care recommendations.

OUR SERVICES:

- Hoof rehabilitation
- High performance barefoot care
- Education on how to successfully manage a barefoot horse
- Dietary advice for healthy hooves
- Exercise and conditioning regime for healthy horses
- Maintenance trimming
- Advice line

"Lucy has transformed my very unwell horse who would not have made it had it not been for Lucy who was always there to support me"

"I could recommend Lucy to anyone with complete confidence for their horses foot care and nutritional needs"

"thanks again... I always learn so much from your visits, you are one of the good things about moving back to England. I don't think there is anyone to beat you and I feel very lucky to be on your client list..."
